These plants will take sun or shade:
Taxus/Yew Amersfort, Dwf Bright Gold, Dk green spreader, Dwf Eng. spreader, Everlow, Hicks, Irish,
(*foliage and berries toxic to wildlife/pets, so wrap completely with burlap or frost cloth in late fall thru mid spring, collect berries & throw out) *We can help you choose other plants for river or foothills locations if you need to substitute.

Most shade tolerant plants prefer amended soil, when you plant. ie: acid planting mix
